COUNTRY OF ORIGIN CERTIFICATION LETTER

This document provides information on the origin of our products at Se-Kure Domes and Mirrors, the mirror manufacturer for **National Safety Mirror**.

The material used for manufacturing our mirrored and non-mirrored convexes and domes is made of acrylic for the standard product lines. We produce a small amount of mirrors made of Polycarbonate and PETG. All of these materials are made in the United States of America.

Most of our hardware is manufactured by our parent company, Se-Kure Controls of Franklin Park, IL. The rest of the hardware is purchased through various vendors within the United States.

Cartons, tape, and other packaging materials come from local vendors with the origin of The United States.

We form, mirror, paint, fabricate, assemble, and package our products in our facility in Sturgis, Michigan 49091 USA.

Se-Kure Domes and Mirrors is a 100% American-owned company, which is a division of Se-Kure Controls, a privately Veteran owned company. We are registered with NAFTA.

This statement is accurate to the best of our knowledge.

Sincerely,

Jason Warren
